

WHEAT Institute

A Place For Everyone

Offers

Art and Expressive Arts Therapy Diploma Programs

Registration Deadline: January

Expressive Arts Certificate

Two annual intakes in July and November

Registration Deadlines: January and October

Our therapeutic arts programs engage participants in developing the competencies necessary to become art and expressive arts therapists and expressive arts practitioners. We have combined our former Harmonized and Rivers of Solidarity programs to offer one solid foundation in clinical and community-based art and expressive arts therapy. Through a social justice lens, we address factors of diversity, equity and inclusion using embodied arts-based approaches. Participants are invited to deepen their awareness, understanding, capacity, and skills, working with the lived embodiment of systems and their transformation.

Spring / summer immersions take place at Painted Sky Studio in a tranquil, natural, lakeside setting. Join us!
